EDUCATION

Bachelor of Science in Software Engineering, Drexel University, Philadelphia

September 2016 — June 2021

EMPLOYMENT HISTORY

Software Engineer Co-Op at Nuix, Conshohocken

April 2019 — September 2019

- Taught fellow co-ops React.JS and Redux including best practices and modern Javascript.
- Collaborated with a front-end mentor and a user experience designer to develop dynamic forms and graph-based interfaces.
- Contributed to research and development of a React component library using Storybook.JS.

Web Developer Contractor at Nuix, Conshohocken

September 2018 — December 2018

- Mentored a new Web Developer co-op to help them learn their role they were filling, develop their web development skills, and navigate the workplace.
- Developed an Interactive Brand Center to ease the transfer of assets from the Graphic Design team to the Marketing team, using React.JS and Keystone.JS.
- Advised non-technical designers and managers how to best solve problems using web-based solutions.

Web Developer Co-Op at Nuix, Conshohocken

April 2018 — September 2019

- Coordinated with the Design and Marketing teams to develop an event website for Nuix's User Exchange 2018, which featured interactive elements that enable users to easily find desired information.
- Recreated the Nuix blog to reflect the Marketing team's needs while coordinating with an external contractor to optimally complete the project in Drupal.
- Collaborated with the Design, User Interface, and User Experience teams to design Nuix websites that follow current trends and provide accessibility for a broad range of users.
